

NATURE FORCES

We are calling nature forces,
dwarves and fairies, rainbow horses,
flora, fauna, human race,
step together and embrace!

May the air get fresh and healthy,
may the winds be blowing gently.
May the raindrops wash the sky,
clean the Earth and clear our sight!

We are calling nature forces,
dwarves and fairies, rainbow horses,
flora, fauna, human race,
step together and embrace!

May the soil be young again,
welcome seeds and nourish them,
make them grow big and strong
and feed the world around the globe!

We are calling nature forces,
dwarves and fairies, rainbow horses,
flora, fauna, human race,
step together and embrace!

May the waters be transparent,
running smoothly on their errands,
sending message to the world:
»Love all the children of the Earth!«

We are calling nature forces,
dwarves and fairies, rainbow horses,
flora, fauna, human race,
step together and embrace!

May the Sun be shining warmly!
May the Moon be twinkling friendly,
scattering stardust on the Earth,
blessing all the Universe!

We are calling nature forces!
We are calling nature forces!
We are calling nature forces!
